

EASY TO MAKE BEAD COUNTER: Print out on firm paper or light board

Just cut out along the outer triangle — Fold the edges of the inner triangle inward
Snip the corners and sellotape to the adjoining edge to form an upright lip.

HOW TO USE THE BEAD COUNTER

1. Shake the beads into the bottom corner.
2. Count the number of complete rows .
3. Look up the number of rows on the table e.g. 8 rows = 36 beads.
4. Add the beads that do not fall into a complete row.
